CALIFORNIA

WHAT IS DEREGULATION?

- Before deregulation, large power companies held monopolies in every market.
 - » Customers had very few, if any, plans or companies in their region to choose from.
- After deregulation, multiple companies offer a variety of products.
 - » Customers can choose the CTA they want.
 - » Competition gives companies the incentive to create more innovative products, offer more responsive service, compete on commodity price and come up with other ways to attract consumers.

CALIFORNIA

WHAT IS A DISTRIBUTION COMPANY?

- The utility is the entity that operates the local natural gas distribution system.
- Regardless of which CTA provides the energy service, the utility delivers it to the home or business.

Responsibilities of the utility:

- » Delivers gas.
 - » Maintains the gas pipelines and facilities.
 - » Maintains the reliability of the system.
 - » Maintains and reads all meters.
 - » Provides 24-hour emergency service.

SLAMMING

SELLING GAS IN THIS MARKET

- Slamming is defined as the “transfer by a supplier of a Customer’s account without the Customer’s permission.”
- Slamming is prohibited and is a very serious offense.
 - » Continued slamming may result in the retail supplier’s banishment from the market.
 - » Slamming a Customer may result in a fine.
- Ambit Energy has a zero tolerance policy on slamming. Consultants will incur penalties up to and including termination as stated in the Policies and Procedures.
- Understand the regulatory rules and strictly follow them so Ambit is not fined.

CALIFORNIA

CUSTOMER ENROLLMENTS

CALIFORNIA RULE

- PG&E requires that all Customers who switch to a CTA remain with that CTA for at least 12 months.
 - » If a Customer is with a CTA for less than 12 months and signs up for service with a competitor, the switch will only occur after the Customer completes 12 months of service with their current CTA.
 - » If the accepted switch date is more than 60 days out, Ambit Energy will send a drop request to cancel the future-dated switch.
- If the Customer wishes to switch to Ambit Energy earlier, the Customer must first contact their current CTA (or PG&E) and request to be dropped back to PG&E.
 - » Once the Customer has requested the drop back to PG&E, they must wait five business days, and then contact Ambit Energy Customer Care (877) 282-6248 to request that we resend their switch request.

CALIFORNIA

CUSTOMER ENROLLMENTS

- » Ambit Energy will only re-send the switch up to 30 days after the enrollment date. After this timeframe has passed, the account has to be re-enrolled.
- It is the responsibility of the Customer to confirm whether or not an early termination fee would be applied to their account as a result of their request to cancel.

Example: John signed up for a variable plan two months ago with California Birkenstock Energy (CTA). He then enrolls in an Ambit Energy product. His Ambit service will not start for another 10 months. He is asked to cancel his account with California Birkenstock so that he can start enjoying the benefits of being an Ambit Energy Customer much earlier. John should check to see if Birkenstock will charge him an early termination fee if he cancels his contract early to switch to Ambit now.

CALIFORNIA

CALIFORNIA CONSUMER PRIVACY ACT (CCPA)

This Act imposes obligations related to consent and disclosure on businesses handling the personal information (PI) of California consumers. This Act is the first of its kind in the United States and went into effect on January 1, 2020.

HOW THE CCPA DEFINES PERSONAL INFORMATION (PI)

- The CCPA defines PI very broadly. PI means information that identifies, relates to, describes, is capable of being associated with, or could reasonably be linked, directly or indirectly, with a particular consumer or household.

EXAMPLES OF PI

- PI includes names, mailing addresses, email addresses and social security numbers. PI also includes employment information, internet activity, geolocation data and purchasing history. The CCPA provides many other examples of PI.

CALIFORNIA

CALIFORNIA CONSUMER PRIVACY ACT (CCPA)

AMBIT IS SUBJECT TO THE CCPA

- The Act applies to any business that collects the PI of California consumers, determines the purpose and means of processing that PI, and satisfies threshold conditions relating to gross revenue and number of consumers. Ambit qualifies as a business that must comply with the CCPA's requirements.

AMBIT'S MAIN OBLIGATIONS OF THE CCPA

- Under the CCPA, we must guarantee the following rights to California consumers: The right –
 - » To know what PI is being collected about them.
 - » To know whether their PI is sold or disclosed and to whom.
 - » To say no to the sale of PI.
 - » To access their PI.
 - » To request the deletion of their PI.
 - » And the right to equal service and price, even if they exercise their privacy rights.
- The CCPA also requires us to use reasonable methods to secure and protect consumer PI from unauthorized access and disclosure.

CALIFORNIA

CALIFORNIA CONSUMER PRIVACY ACT (CCPA)

AMBIT INDEPENDENT CONSULTANTS ARE SUBJECT TO THE CCPA

- Because you are an Ambit Independent Consultant (IC) representing Ambit and marketing our products and services directly to California consumers, you must also have a general understanding of what the CCPA requires and how PI must be handled. As a California resident, you also have rights under the CCPA yourself as a consumer and independent contractor with Ambit.

AMBIT INDEPENDENT CONSULTANT'S MAIN OBLIGATIONS OF THE CCPA

- You should not collect, share, record, or maintain Customer PI in any way.
- You may inform Customers what items of PI they must provide to complete their own enrollment with Ambit, either online or via Customer Care.
- Customer Care is trained to handle consumer PI in a way that is compliant and protects the Customer, Ambit and you.
- If an IC violates the CCPA or discloses or shares Customer PI without authorization, Ambit will no longer do business with the IC and may pursue legal remedies, depending on the nature of the violation.

CALIFORNIA

CALIFORNIA CONSUMER PRIVACY ACT (CCPA)

ENFORCEMENT OF THE CCPA

- The CCPA gives the California Attorney General (AG) primary responsibility for enforcing it. Under the CCPA, businesses are subject to civil action by the California AG and can face penalties of up to \$7,500 per consumer violation. The CCPA also provides a private right of action to Californians if there is a data breach. In a private action, businesses can face paying between \$100 to \$750 per incident, even if there are no actual damages.

CUSTOMER QUESTIONS ABOUT THE CCPA

- Ambit Customers in California may ask you questions about the CCPA and how we comply with the Act. They may also ask you how they can find out what personal information Ambit maintains about them. Please be sure to refer them to Ambit's Customer Care team who are trained on the CCPA. Please leave it to them to address the Customers' questions and requests.
