Low-Level Radioactive Waste	Unknown Lbs./1,000 kWh																																									
<p>Ambit Northeast, LLC purchases Renewable Energy Energy credits (RECs) as a means of complying with the renewable energy resource benchmark under the State of Ohio's alternative energy portfolio standard requirements. The requirement for 2026 is 8.5% renewable. The renewable energy sources associated with green electricity plans may include, but not be limited to, RECs from wind, solar, biomass, hydro, or other renewable energy sources. With in-depth analysis, the environmental characteristics of any form of electric generation will reveal benefits as well as costs.
