The requirement for 2021 is 5.5% renewable. The renewable energy sources associated with green electricity plans may include, but not be limited to, RECs from wind, solar, biomass, hydro, or other renewable energy sources. With in-depth analysis, the environmental characteristics of any form of electric generation will reveal benefits as well as costs. For further information, you may contact Ambit Energy at [ambitenergy.com](http://ambitenergy.com) or by phone at (877) 282-6248 from 8:00 a.m. to 11:00 p.m. (ET), Monday – Sunday.
