

North Central Product Content Label

Ambit Green North Central products are certified by Green-e® Energy and match 100% of your monthly electricity usage. The table below provides the Ambit Green North Central renewable resource mix in 2024, as well as the projected resource mix for 2024/2025.

Product Content Label

Renewable Energy Source	2024 Historical mix (location)	2024/2025 Projected mix (locations)
Wind	100% (IL)	100% (IL, NJ, PA, VA, WV, OH, MI, KY, TN, IN, WI, or DC)

Prospective figures reflect the renewables that we have contracted to provide. Actual figures may vary according to resource availability. We will annually report to you before August 1 of next year in the form of a Historical Product Content Label the actual resource mix of the electricity you purchased. Historical figures reflect the power delivered to Ambit Green North Central customers in 2024.

New renewables come from generation facilities that first began commercial operation within the last 15 years. A REC represents the environmental benefits of 1 megawatt hour (MWh) of renewable energy that can be paired with electricity. For more information, visit green-e.org/rec.

For comparison, the 2023 average mix of resources supplying the North Central region includes: Coal (11%), Nuclear (36%), Oil (0%), Natural Gas (45%), Hydroelectric (1%), Wind (4%), Solar (1%), Biomass (0%), and Other (1%). (Source: US Environmental Protection Agency, eGRID). The average home in the region uses 750 kWh per month (Source: U.S. EIA, 2023).

Green-e Energy certifies that Ambit Green North Central meets the environmental and consumer protection standards established by the non-profit Center for Resource Solutions.
